FEEDBACK REGARDING ACTIVITIES CONDUCTED BY SPACE

SPACE has been conducting the **Astronomy classes under the aegis of ASTRONOMY CLUB** for a number of years at **Bal Bharati Public School, Noida** and has been doing a phenomenal task of inculcating a deep interest in Astronomy amongst the student community. The **Pariddhi Project** which has been conducted a number of times at Solstice and Equinox has made children aware about the method of finding the circumference of the earth with a good degree of accuracy which leaves them awestruck. International projects like the **Asteroid Hunt** conducted in collaboration with International Astronomical Search Collaboration (IASC, Hardin-Simmons University, Texas, USA) and the **Sally Ride Earth Kam** have given the students an opportunity to work with professional astronomers and get access to real astronomy data. We would like to thank **SPACE** for organizing an **interactive session with Captain Sunita Williams** during which one of our students got a chance to ask her a question, and the response given by her enthralled the audience. We congratulate **SPACE** and wish them the best in its future endeavors.
