

## Students of Natesan school observe super moon

*Around 500 participants including students, parents and teachers observed the super moon*

Students, parents and teachers of Shri Natesan Vidyasala Matriculation Higher Secondary School, Mannivakkam, observed the super moon on its premises along with Space Chennai team, as part of the school's public-outreach programme. Around 500 participants including students, parents and teachers observed the moon through three dobsonian 200mm reflector telescopes set up by Space Chennai. Space educators explained the concept of super moon.

N. Rama Subramanian, founder and school correspondent, welcomed the gathering. S. Venkata Narayanan, business manager, south zone, Space, stressed on the need for scientific temperament in the young minds so as to take up a career in astronomy. Renuka, science teacher of the school, said "With astrophysics and astronomy gaining momentum in research space, this programme is an eye opener to the children for exploring things that take place in space."
