

Ref. No: SPACE/H.O./OUTREACH/NATIONAL SCIENCE DAY/16-15

National Science Day organized by SPACE at RAAHGIRI, CP on February 28, 2016
Theme for 2016 is 'To raise public appreciation scientific issues for the development of nation'.

New Delhi, 28 February, 2016: SPACE, the pioneer organization working towards the development of science and astronomy in India, has participated at RAAHGIRI on 28th February, 2016 for general public. The programme was held from 6.30 AM to 9 AM at E-Block Parking, Connaught Place. The programme has seen a tremendous participation of more than 500 people.

We had set up different activities at the venue and educate the masses on scientific facts helpful in development of nation, with the activities like, Air Rocketry, Weigh Yourself on Different Planets, Ring the planets, Photograph as an Astronaut and Catch the Meteors. SPACE educators at the venue had guided the visitors on how to perform these and participate in these activities. SPACE educators have also briefed the gathering and point out prominent stories and myths associated with science.

Students associated with SPACE schools have attended the activity with their families. Some students also volunteered and explain the activities to public. The conduction was open to all age groups and is free of cost.

In the past SPACE has organized various engaging programmes for the general public in the spirit of National Science Day. Some of these are Evening Sky Observation in 2014, Hydorrocketry Competition in 2013, in collaboration with Nehru Planetarium, Heritage Walk at Jantar Mantar, New Delhi in association with The Archaeological Survey of India in 2012.

About National Science Day

28th February is celebrated as the National Science Day to mark C.V. Raman's discovery of the Raman Effect for which he also received the Nobel Prize in Physics in 1930. This major scientific achievement is celebrated across India during which students of the schools and colleges demonstrates various science projects as well as national and state science institutions demonstrates their latest researches.

About SPACE

SPACE, the pioneer organization working towards the development of Science and Astronomy in India, is an ISO 9001:2000 certified company which has been changing the face of Science and Astronomy awareness, education and innovation in India through path-breaking concepts, services and programmes. SPACE from past 15 years has not only successfully implemented astronomy and space science curriculum in Indian education system but has also been able to provide International platforms to Indian students where they distinctively contribute in scientific discoveries at a very early age. SPACE, constantly strives to use scientific and astronomical programs to foster scientific temperament in society, especially among the youth who are the harbingers of India's future.
