- Name of School Principal: **Mrs. Surjeet Khanna**
- Number of Participants (give best estimate): **1000+**

### BRIEF DESCRIPTION

- Brief Description:

The evening of 31<sup>st</sup> January, 2018 was spectacular one with night sky observation of the Lunar Eclipse organized at the school ground of DPS Greater Faridabad by SPACE Club members of the school. The chilly winter night sky brought with it a nip but it was soon forgotten with the happy laughter that rang out as young disputes and their families converged to witness the momentous event of the Blue Moon, Super Moon and Total Lunar Eclipse.

- Special Highlights of event:

The live coverage of the event was also displayed on the projector. Budding Astronomers of SPACE Club had an amazing time doing Astrophotography, capturing different shades of Moon during an Eclipse time. The Myth breaking Corner 'Mano Ya na Mano' was set up to break the myths linked to the eclipse. The tired but happy faces of about four thousand visitors were testimony to the fact that a spark had been ignited in these young minds, which would soon fan to life and create out of the box thinkers in the years to come.
