OVERNIGHT OBSERVATION ORGANIZED BY (SPACE ASTRONOMY CLUB) AT ASTROPORT, SARISKA (ALWAR) RAJASTHAN

The learners of Billabong High International School Noida, had an Overnight Observation session at Astroport, SPACE research Facility Centre, Sariska, Alwar (Rajasthan) on 9th December 2015.

The Learners observed different stars and constellations in the night sky through telescope to find stars, galaxies and other objects. Locating the constellations and planets in the night sky with the help of latitude finder and planisphere was amazing.

Rotation and Revolution concepts were explained through different interesting mythological stories hidden behind each constellation which the learners listened to with full enthusiasm.

The morning observation of Venus and Jupiter was spellbinding.

It was a great and wonderful experience for the learners to indulge in reaching out to the stars.
