Dear Sir/Ma'am,

07.05.2016

We take this opportunity to thank **SPACE** to initiate **Astronomy Club** and **Explorer Workshops** to help young Amitians to understand, learn, explore, experiment and experience the wonders of the universe.

The hands-on application of Astronomy concept has inculcated scientific temper and life skills among our students. The Astronomy Sessions not only stirred scientific curiosity among **Amitians**, but also made them more observant, analytical and innovative. The Overnight Camp organized at **Astroport, Sariska** provided great sky viewing with one of the darkest sky in India along with exposure to organic farming on site. The accommodation, food, cultural dance show at the site was thoroughly enjoyed & appreciated by students.

Through **Astronomy Club** and **Explores Workshops**, our students got complete exposure to various aspects of astronomy and space science along with an opportunity to participate in national and international competitions and projects.

The learning tools and astronomy resource kit provided to students helped them to disseminate passion & awareness towards Astronomy in the society.

We extend our best wishes to **SPACE** for future endeavors and looking forward to a long lasting educational association.

Thanks & Regards

  
**Ameeta Mohan**
