

Dear Space Team

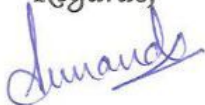

I would like to thank you all for the wonderful experience that you provided to our children during the overnight trip to Astroport, Sariska for "Night Sky Observation".

It was an immense joy to see my children come back happy and excited. They were enriched with knowledge and shared all their observations in great detail. They loved the positive learning environment that was provided to them.

The feedback of the parents too was overwhelming which reflects the care and security that our children experienced during the trip.

I look forward to more such associations in the future.

Regards,

*Principal
