## TO WHOMSOEVER IT MAY CONCERN

Ramjas School, Pusa Road, New Delhi, is thankful to SPACE team for their time and efforts to organize Astronomy & Space Science workshop 'Hydro-rocketry' in a successful manner. The hard work commitment and involvement of your team is very much appreciated. All the students of middle and senior enjoyed their learning immensely.

The team of facilitators from SPACE efficiently led the students on their journey to explore the Aerodynamics and its impact on motion of the rocket. They were given hands on experience about the mechanism of the rocket. They experienced how to design, construct and launch simple Hydro Rockets into space in a virtual simulated environment.

We thank SPACE for successful conduction of all activities with perfect coordination and team work, for our little ones.

Principal,

Ramjas School, Pusa Road
